

Welders 165N LIFEJACKET

Welders 165N Lifejacket

This 165N lifejacket has an aluminised fibre glass satin fabric, spark resistant and flame retardant to ATSM 1642 cover and horseshoe neck. The cover is durable and makes working with or around flammable items or where is the risk of spark a lot safer. This makes this product both practical and very comfortable. Its neat compact design makes it ideal for everyday use both inshore and offshore, whether your wearing light clothing or wet weather gear.
